Assignment 3

- Try J4.8 (C4.5), Naïve Bayes, SVM, Neural Network, kNN, and their ensemble version using Bagging on provided data sets based on 10-fold cross validation, can compare their performances w.r.t, accuracy, and AUC. Discuss on their performance and suggest how to improve Bagging of KNN (with necessary experimental evidence).

- Due in: June 3 (11:59 at noon)
